

AFS QUALITY POLICY

AFS Limited Top Management, have developed this policy considering the context and requirements of the organisation, the associated risk and opportunities within the business and the needs of identified interested parties.

As a Fabrication, Rope Access and labour supply provider to the Oil & Gas, Renewables, Utilities, Marine and Nuclear sectors, the primary goal is to ensure the company's products and services fully meet or exceed the requirements of its customers, stakeholders and other interested parties at all times. The commitment to the implementation of supporting managerial and business operational systems is essential to realising that goal.

AFSL believes in the concept of customers and all other interested parties working together in pursuing the company's goals and in continually striving for improvements in product and service quality.

The quality policy is based on the principles and requirements of international standard BS EN ISO 9001:2015 including:

1. Ensuring that we fully identify and conform to the needs of our customers and other interested parties.
2. Identifying risks to the organisation and the measures taken to address and mitigate such risks.
3. Identifying and pursuing opportunities for enhancement of the business and its management systems.

To ensure that the policy is successfully implemented, staff will be responsible for identifying customer requirements, and ensuring that the correct procedures / processes are followed to meet those requirements.

Objectives needed to ensure that the requirements of this policy are met and that continual improvement is maintained will be set by Top Management and monitored at Management System Reviews. This policy shall be prepared and reviewed annually by the Managing Director to ensure its continued effectiveness.

The quality policy principles and objectives will be communicated and available at all times. Correct competencies and suitable training will be an integral part of the strategy to achieve the objectives.

Within this Policy we are committed to operating our Company under the control of a Quality Management System implemented in accordance with the International Standard BS EN ISO 9001:2015, planned and developed jointly with our other management functions including our approval to BS EN 1090 for the supply of fabricated CE marked structural steelwork and to the Pressure Equipment Regulations for the supply of CE marked fabricated pipework.

AFSL are committed to operating continuously to these standards and to maintaining the necessary Quality Approvals consistent with our customer and market requirements.

Our Company will constantly review and improve on our services to ensure tasks are completed in the most cost effective and timely manner for the benefit of all our customers, stakeholders and other interested parties.

We shall ensure that all our personnel understand and fully implement our Company's policies and objectives and are able to perform their duties effectively through ongoing training and development.

This policy is made known to all employees through induction and also posted in the workplace and on the company website

Carl Honeywood

Director
